

Herbalife SKIN® Collagen Beauty Booster

Let the best of You shine through!

What can You do to keep your skin & body looking healthy and aging well?

Some factors that contribute to skin health and appearance:

- What you eat and drink
- What you do and where you go, sun exposure, smoking, pollution, alcohol consumption, stress, etc. ...
- Your age and gender
- Your skin care regimen
- Optimum level of collagen in your skin

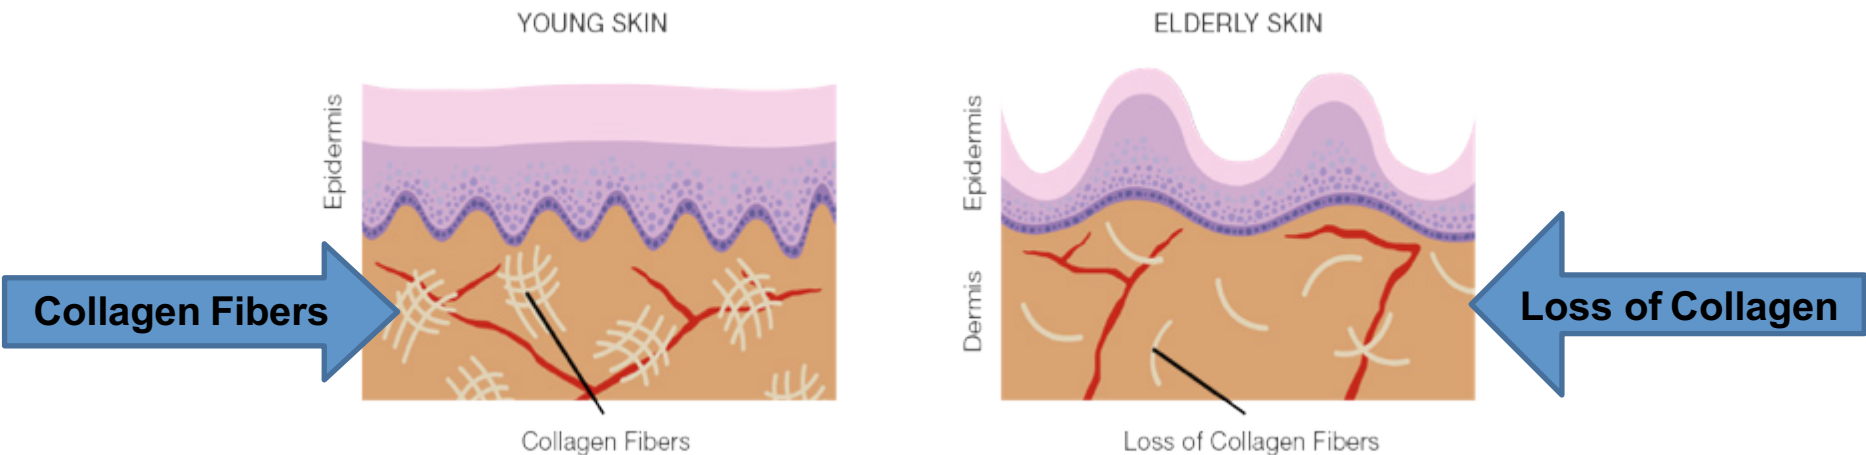

Why should you care about collagen?

What is collagen?

- Collagen accounts for 25% to 30% of the total protein in the human body
- It comprises about 75% of our skin
- Collagen is what gives the dermis its firm structure

As we age, the production of collagen in our bodies diminishes resulting in the loss of firmness and elasticity, and the appearance of wrinkles.
